

# My Friend [Lyrics]

[Phil Wilson]

## Intro

### Verse 1

Seems like a lifetime ago  
I felt you, your presence in my soul  
Somewhere along the beaten path  
I lost you, your footsteps in the sand

### Chorus

And I broke my heart into a million pieces  
Felt like there was no more reason  
You came down, saved me from myself  
Woke up, from the darkness  
With a brand new heart and  
My new life is ready to begin  
(with my friend)

### Verse 2

Trying to escape the past  
All my sins, all that I have been  
F#mEither way I tried to slice it  
Just had to give my life and  
Trust in you to make me new again

### Bridge

Can you break these chains?  
I ask you in your name
