Intro

Verse 1

You found me where hope was hard to see
Inside, outside, every space between
Fighting fears, but also on my knees
You found me and settled me with peace

Chorus

I am free. Now I see
You moved the stone that buried me
Life to life. Breath to breath
You will restore my brokenness

Verse 2

You found me now I can't get enough
Even in the dark, I see your love
I feel you in the times it's hard to breathe
I sing in the shadows of your wings
